

Optimize Your Healthcare Supply Chain with RDA

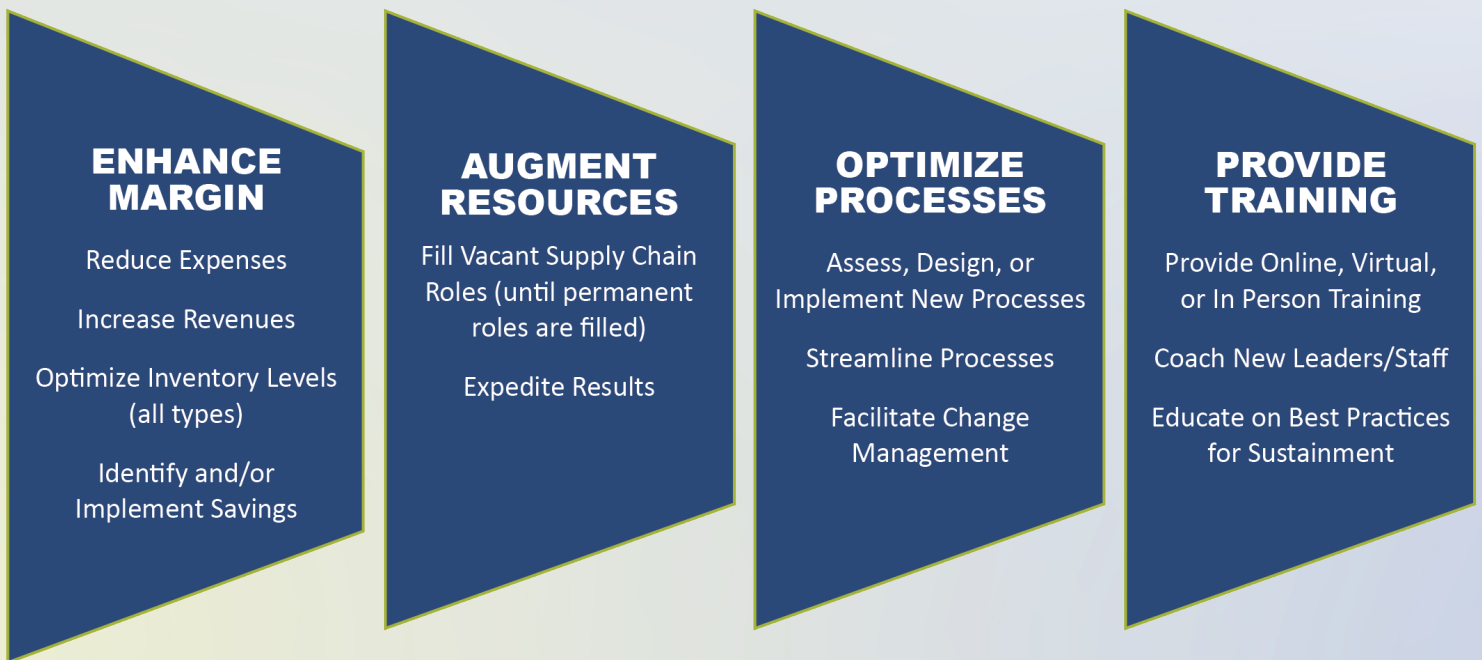

Realistic Solutions. Experienced Resources. Proven Results. Sustainable Impacts.

RDA Healthcare Supply Chain Services is an independent, nationwide company that helps healthcare organizations transform the supply chain across all spend and operational areas – including Surgical Services, Cath Lab, Interventional Radiology, and more. Our team operates as an extension of your supply chain team to optimize performance while reducing costs and waste.

With our experienced team and healthcare industry expertise, RDA goes beyond consulting – we assess, design, and implement supply chain solutions that create immediate and lasting impact across all departments and facility types. Whether in acute or non-acute settings, **we help healthcare providers reduce expenses, streamline operations, improve inventory management, and drive sustainable efficiencies through an unbiased lens.**

We advance Supply Chain to reduce costs and increase operational efficiencies for healthcare organizations nationwide.

RDA addresses critical needs for healthcare organizations.

RDA assesses, designs, and implements margin enhancements, optimized processes, inventory, and training for sustainment.

Your Challenges, Our Solutions

How We Deliver Results

Supply Chain Performance Improvement

We enhance supply chain processes to lower costs, improve efficiency, and eliminate waste. Our customized approach meets your specific needs, resulting in short and long term financial gains and operational efficiencies.

Inventory & Space Optimization

From storage utilization to inventory accuracy, we design and implement best-in-class inventory processes, utilizing proprietary technology to optimize inventory, reduce waste, and maximize resources – all while ensuring seamless supply availability for healthcare operations.

Interim Management

RDA provides experienced healthcare supply chain leaders to fill key vacancies, offering stability and continuity while driving measurable improvements. Our interim leaders step in ready to lead and deliver immediate impact.

Training & Change Management

Our training programs equip entry level resources and supply chain professionals with best practices to optimize performance across each supply chain function. RDA also provides experienced resources to facilitate and implement change management to sustain results over time.
