★ GOALS ★

- 2% - 4% Operating Expense Impact
- Improve Workflow and Efficiencies
- Improve Clinical and Staff Satisfaction

REMOTE ON-DEMAND SUPPLY CHAIN & PHARMACY SUPPORT

Supply Chain

RDA provides end-to-end supply chain services; however, we typically see the greatest needs in the following areas for non-acute, independent and rural facilities that result in significant operating expense impact.

Supply Chain Assessments (identify & prioritize quantitative and qualitative opportunities)

Contracting

- Spend & Contract Gap Analysis (supplies, purchased services, and pharmacy)
- Contract Optimization (Local & GPO), Consignment Management
- Savings Implementation

Value Analysis

- Convert from "Product Evaluation Committee" to Strategic Sourcing Governance (for supplies, purchased services, and pharmacy)
- Provide Value Analysis Training and Templates

Inventory/Logistics

- Inventory & Space Optimization Analytics (demand planning and predictive analytics via Demand Logic™)
- Streamline Workflows and Document Best Practice Guidelines
- Distribution Strategy and Model Analysis

In addition, we provide comprehensive pharmacy services that lower expenses and retain quality.

340B Pharmacy Assessments (identify & prioritize quantitative and qualitative opportunities)

Regulatory Compliance & HRSA Audits Program Implementation & Optimization

- Clinical utilization review
- Hospital Mixed Use Setting
- Contract Pharmacy

Pharmacy Financial Analysis

- Pharmaceutical waste/expired strategies
- Inventory management of high cost drugs
- Formulary management
- Best price analysis
- GPO contract penetration analysis

WAC Management

Patient Assistance Program Evaluations
