Supply Chain Services

RDA PROCEDURAL SERVICES

Expense Reduction, Process Improvement,
Training, & Support for OR, Cath Lab, IR, & SPD

Utilize RDA to optimize your Procedural Supply Chain so you can focus on patient care.

Every minute matters in procedural care. Whether it's a backorder, missing supply, or space inefficiency – delays cost more than money. RDA helps hospitals and health systems solve supply chain challenges so clinicians can focus on what matters most: patient outcomes.

Trusted by Healthcare Facilities Nationwide Here's How We Help

Process, Inventory, & Space Optimization

- Reduce expenses
- Optimize inventory and space
- Streamline vendor tray management process
- Improve space and workflow
- Increase labor efficiencies

Interim Leadership

- Provide Interim Supply Chain Leaders & Resources
- Sustain or launch initiatives
- Provide Supply Chain mentoring and training
- Increase satisfaction across clinical and supply teams

On-Demand Support

- Review, negotiate, and optimize supplier contracts
- Facilitate RFPs
- Streamline preference cards, case pick/return, and room turnover, etc.
- Redesign supply storage space
- Implement savings
- Document processes

On-Demand Training

- Online, virtual, or in-person formats
- Courses for staff at all levels
- Certificates for CEUs
- Immediate access, no ramp-up required

Why Procedural Leaders Choose RDA

- We're independent – so our solutions are unbiased
- We don't just assess – we also design and implement
- We create sustainment – because we train your team
- We customize solutions that fit your culture
- We've earned repeat business because we focus on the right outcomes: clinical time, cost savings, and supply chain resilience

What's on Your To-Do List?

- Interim resources (leadership & tech)
- Reduce expenses
- Optimize inventory levels
- Optimize processes (case pick, preference card, inventory management, consignment, bill only, etc.)
- Provide Supply Chain Training or Mentoring
- Redesign Supply Storage Space

We can help.

Because what happens behind the scenes shapes what happens at the bedside.
